- Tailwind CSS

PROJECTS

NETFLIX-CLONE

Demonstrated proficiency in frontend frameworks (Next.js, React) by building an intuitive login interface with state management and form validation.

Applied RESTful API principles and JWT-based token authentication to implement robust and secure communication between a Next.js frontend and a Hasura backend.

Gained experience with GraphQL and Hasura, streamlining data fetching and implementing user management features within a Next.js application.

DISCOVER PIZZA STORES

Created the 'Discover Pizza Stores' web app using Next.js, integrating Foursquare Places, Unsplash, and LatLong APIs.

The result is a highly responsive and user-friendly platform for exploring nearby pizza stores.

This project highlights my proficiency in Next.js and my dedication to building engaging web applications.
